WPTBS SPONSORSHIP

We are a fishing organization that was created to provide a safe, fun, competitive, and a wonderful learning experience to all that join. We afford all fishing teams the opportunity to compete and grow no matter the skill level. We fish a vast amount of waters that brings our organization and members all over the western and central part of Pennsylvania, as well as, eastern Ohio and southern New York. Because of the vast exposure our organization and members get geographically as well as through the internet and social media, we provide a wonderful exposure to businesses and individuals that wish to support our organization by donating to our success. We would love to have the opportunity to help each other grow so please choose one of the following below:
